Sophisticated and swinging instrumental jazz and fresh takes on timeless soul favourites from a classic combo of trumpet, guitar and acoustic bass, Highwalk brings together some of London's leading young jazz talent. Experienced in private and corporate events, our clients have included Rothschild, TfL, ING Bank, The Royal Exchange and the Leverhulme Trust.

For a high-class atmosphere during drinks, dinner and networking events, or an intimate after-dinner performance, Highwalk is the perfect group, with a small footprint and minimal setup needed. For larger events, we can draw on our extended ensemble including drums, vocalists and other instrumentalists such as saxophonists.

Our repertoire is based on the core of the jazz standard tradition but also includes a special selection of soul and pop tunes in unique arrangements. Here is a small sample of what we play. With notice, we're happy to consider special requests!
